THURSDAY, SEPTEMBER 28, 1899.

REPUBLICAN TICKET.

For Governor, W. S. TAYLOR, Of Butler County.
For Lieutenant-Governor, JOHN MARSHALL, Of Louisville.
For Secretary of State, CALEB POWERS, Of Knox County.
For Attorney-General, CL. PITTS V. RATT, Of Hopkins County.
For Auditor, JOHN S. SWEENEY, Of Bourbon County.
For Treasurer, WALTER R. DAY, Of Breathitt County.
For Superintendent of Public Instruction, JOHN BURKE, Of Campbell County.
For Commissioner of Agriculture, CAPT. J. W. THROCKMORTON, Of Fayette County.
For Representative, BEN T. ROBINSON.

The London Statist has figured out that American prosperity will continue. Well, most of us on this side believe the Republican party will be in power quite a while, also.—Kansas City Journal.

JERRY SIMPSON, Congressman, has been hooted off the stage in his native Kansas, for championing Aguinaldo. There may be some degenerate places in Uncle Sam's domain where such treason would be tolerated, but not in the great West.

SENATOR VET, in an interview reported from Canada, says American farmers have received no particular benefit from the prevalent prosperity and are as dissatisfied as ever. This will be news to the farmers.—Indianapolis Journal.

In three years of Republican administration the country has doubled the highest export mark reached in Mr. Cleveland's term. Democratic orators in their campaign speeches can hardly be expected to pay much attention to a trivial commercial incident like this, but the country is not likely to lose sight of it.—New York Tribune.

COL. GREEN R. KELLER tells of a Goebel newspaper report of a Goebel speaking, which was written and mailed fourteen hours before the speaking. The gentleman reported to have informed Goebel was not nearer to the speaker than twenty-two miles, and the crowd of 5,000 reported as listeners, Mr. Keller says couldn't find standing room in the whole town. Truthful, even!

One of the amusing inconsistencies in the Kentucky political field is the Princeton Republican with the "Log Cabin" ticket at the head of its editorial column and an electrotype of "Bryan's New Book" run on an exchange basis in its advertising columns. If the editor of the Republican must read Mr. Bryan's book, he should buy or borrow it, and not exploit it in his paper.

Federal courts are no respectors of persons. In making arrests of Union miners and their sympathizers on suspicion of participating in the Carterville, Ill., riot in which several negro miners were murdered, the city marshal of that town was among the number arrested. About thirty riot prisoners were jailed and wholesale murder will not be so popular among organized ruffians in Illinois, when the Federal law is through with these cases.

The Bryan Democrats are said to be considering seriously a plan to hold their National convention in 1900 two or three months earlier than in past years, says the New York Sun, and Washington's birthday is suggested as the date for the convention. It is evident that these Democrats discover they have a big job ahead and want to begin with it early. But how about the patience of the afflicted public if forced to tolerate nine months of demagogic, anti-prosperity speech-making and campaigning.

POLITICAL POINTS.

Business and normal conditions of American life are sufficiently disturbed by political campaigns, under the present order of things. But the Bryan Democrats are incubating a plan to stretch their campaign over nine months of next year. Mr. Bryan can not be heard often enough, perhaps, in the regulation three months' campaign.

Judge Pratt's visit to Western Kentucky made many votes for the ticket.—Green River Republican.

We're not hearing very much about soup houses and falling prices in these sound money Pro-

tection days.—Ithaca (Mich.) Herald.

The country is now swept by a high tide of prosperity, which, however, has not reached the highest water mark, but which is certain to do so if not hindered or stayed by prolonged and tumultuous political campaign.—Philadelphia Ledger.

Mr. Yount, in his speech here Monday, gave the L. & N. Railroad the devil. His line down in this neck of the woods where we have been kept in the background so long for the want of a railroad was wasted sweetness on the desert air.—Green River Republican.

Goebel continues to declare that he will not withdraw. If General Taylor ever had any misgivings he may now rest assured that our present Attorney General will be our next Governor.—Cynthia Log Cabin.

Col. E. G. Sebree, of Henderson, one of the ablest and best Republican speakers of western Kentucky, will begin a series of speeches soon in the interest of the State ticket. The Colonel has some heavy guns to fire into the enemy's ranks and no lack of apropos incidents and jokes of the campaign and good natured railery.

DOWN IN THE MINES.

In an attempt to force the Sebree miners out of work the U. M. W. strike took place at that mine last week. The Coal Company took this view of the subject that so long as the Hopkins County miners were unorganized, that it was useless for them to work with the miners, who were led by one Pucket, an ideot of many years standing, concluded now was the time to forever settle the question, so they quit work.

Foreman J. B. Head is now in charge of a crew of men, who are making some needed repairs on the Barnsley coal tip and trestle.

The miners at the Barnsley mine have gone to work under the new management with a vim and there is going to be a contest as to which mine will do the most work, the Hecla or the Barnsley mine, with the chances in favor of the latter.

If the long and short hand clause should be enforced as Goebel desires, the mines in Hopkins County would be compelled to close down.

The Haweaville, Ky., Plumbader, says: "There is coal enough in five miles of Haweaville to supply one thousand factories for two hundred years and enough in the county to run the manufacturing business of the state for five hundred years." This is a strong statement, but it has been taken *en grano salis*.—Black Diamond.

The Daily Capital, South McAlester, I. T., editorially comments on the coal mining trouble in that district. The labor trouble in the Chocaw and Chickasaw nations according to reports received at the Interior Department is not serious. The master was called to the attention of the Secretary of the Interior some days ago by the mine operators and the secretary in turn informed William T. Mitchell, president of the U. M. W. Workers' Union, that the master was called to the attention of the miners and the mine owners and operators is of several months standing and if a settlement is not reached soon the Government authorities may be called upon to expel the miners from the nation.

Mr. Ed Hill had the misfortune to lose his crop of tobacco by fire last week. We are sorry to hear of his loss.

Mr. W. F. Carnell went to Guthrie Thursday on business.

Our young friend, Fred Hobgood, happened to ride past a rock bridge, while driving down a steep hill. His horse became frightened and ran off, throwing him out of the buggy. In falling, some of his clothing caught to the buggy, dragging him some distance. Fortunately, no bones were broken, but he was considerably bruised.

Rev. R. M. Heath, of Earlington, our popular young pastor of the M. E. Church, preached here Sunday morning and evening.

Quite a number of our people are attending court at Madisonville this week.

Miss Goldie Clossler has accepted a position in H. R. Cox dry goods store.

Mrs. Artie Brown is visiting the family of Mr. Wittman Brown, here Dalton, this week.

If Madam Rumor is correct, we are to have a wedding to report next week, but will withhold the names for the present.

Here's hoping THE BEE abundant success.

Red Hill Items.

We would be pleased to hear from U. No Hoo with his messages from North Christian. We are glad to know that we live in such a delightful place where we can enjoy so much of grand old nature.

SCOTT'S EMULSION.

It is very palatable and easily digested. If you will take plenty of fresh air, and exercise, and SCOTT'S EMULSION steadily, there is very little doubt about your recovery.

There are hypophosphites in it; they give strength and tone up the nervous system while the cod-liver oil feeds and nourishes.

Rev. J. F. Price.

SCOTT & BOWNE, Chemists, New York.

"Honest Labor Bears a Lovely Face."

There is nothing more pleasing to look upon than a hearty, ruddy face, gained by honest toil. They are the saving of the nation, these toilers of both sexes, struggling.

True blood makes them able to keep up the daily round of duty at home, shop or store. If the blood has a taint or impurity, or a run down feeling comes on, one remedy is Hood's Sarsaparilla, America's Greatest Medicine for the blood.

Miss Anna Lane of this vicinity, very low at this writing and not likely ever to recover. She is something near 80 years of age.

We would like to read a letter in the next issue from U. No Who, or Blue Eyes, or some of the rest that have not been writing in such a long time.

ROSE BIRD.

Echoes From Nebo.

Mr. Ernest Durham, son of our postmaster, died last week and was buried in the family cemetery, near Ointon. He leaves a wife and four children to mourn his death.

Dr. Bill Hoffman visited his brother, Chris Hoffman, Saturday and Sunday.

J. B. Glyvens, of the Johnson Island country, is very sick at present.

Mr. Ed Hill had the misfortune to lose his crop of tobacco by fire last week. We are sorry to hear of his loss.

Mr. W. F. Carnell went to Guthrie Thursday on business.

Our young friend, Fred Hobgood, happened to ride past a rock bridge, while driving down a steep hill. His horse became frightened and ran off, throwing him out of the buggy. In falling, some of his clothing caught to the buggy, dragging him some distance. Fortunately, no bones were broken, but he was considerably bruised.

Let us suppose a case: Suppose I were a large mine owner, like some one or more of the capitalists near London. Several hundred of my coal miners come to-morrow morning to announce that they have "sympathy strikes!" What good does sympathy do to the idle men, women and children, when the wolf is at the door?

There seems to be no brains whatever in this "sympathy strike." Industrial stagnation forces to close down. Lather-gagging lollipops of labor are sent out to make other stop work against the miners. All day long the miners are idle, but not necessarily so. Hundreds of the railroad employees are idly about town, waiting for the latest part of the mail to go to the coal miners employer? If he has to stop mining coal, it is certainly to his interest that all other miners stop. It is so in any business. By and by the miners force a strike. Caused Quite a Stir.

One day last week the daughter of Mr. Phil Croft, who lives on the hill near town, went out to the well near the house to draw a bucket of water. After she had uncovered the well, she looked around and saw that the cow and calf were together and out in the lot. She ran home, took the bucket and hlat at the well.

The mother became alarmed at her prolonged absence and started out in search of her. On approaching the well she saw her daughter's hat and bucket, and realized that she had run away. All was not silent as a country churchyard at midnight. The mother went to the well and looked into it, and seeing a ripple on the surface of the water, at once concluded that it was nearly below ground, and hurriedly ran to the dipper. She at once set the dipper and attracted the attention of neighbors. They responded and went at once to aid the heartbroken mother. In her attempt to recover the cold, lifeless body of her daughter, she fell into the well.

Now Captain Rash.
The following is from a special to the Atlanta Constitution:

Capt. James R. Rash, who was recently promoted from a first sergeant to the first major of the 29th regiment who has been wounded, and the story of his accident was not told until yesterday morning. It was when Capt. Rash's battalion was at Waco and he was in charge of the rifle butts at a target practice that he was hit. A bullet was fired from a gun and struck a rock, bounded from its regular course, passing through the shirt of Capt. Rash and bursting his skin. Had the course of the bullet been changed a few degrees, it would have passed through his spine, resulting in death.

Capt. Rash is from Henderson, Ky., and was a member of General Grant's staff in the late war, serving in Porto Rico, where he distinguished himself.

Dear Sirs:—I have been troubled with Liver and stomach complaint. I had no appetite and my general health was very bad. I took medicine from four different doctors and they all said that there was no relief until I began to use your Nubian Tea. I used about two dollars worth of it, and it did me more good than all the medicine I ever took. I have gained thirty-five pounds in a short time. I am now in excellent condition. I can recommend Phanter's Nubian Tea to the world as a God-send to my community. Any one who doubts this statement can write to me.

Anti-Goebel Men Won.

Newport, Ky., Sept. 24.—The adverse blow given to the Goebel men in the election of their candidate was administered in this city yesterday. A Democratic city ticket was nominated and not one of the nominees are known advocates of the Kenton's man's cause, while the majority of them are outspoken in their opposition to him.

Col. H. W. Nelson, who is strong in his opposition to Goebel, and equally strong in his advocacy of Governor Brown, attested his popularity with the people by rolling up a record-breaking majority of 1,000 votes in the election of the Lexington ticket.

PROVISIONAL COUNTY COMMITTEE NAMED

At the monthly meeting of the State Executive Committee of the Young Men's Christian Association of Kentucky on the 21st inst., the following gentlemen were appointed to the Provisional County Committee for the Association work in Hopkins County: Mr. J. B. Bailey, Mr. J. C. Gartin, R. M. Hall, Ben Blair and B. R. Ashby, of Madisonville; John B. Atkinson and W. F. Burr, of Earlinton.

Mr. Atkinson declined the appointment with reprobation on account of the multiplicity of his duties but gave assurances of encouragement to the undertaking. Thus were three candidates—Dr. C. C. Norman, who was defeated two years ago; W. M. Moreau and Sam Jones, the latter being well known farmers.

Dr. Norman has been a candidate for two years and is a warm advocate of Goebel and his law.

Samuel Flowers Nominated for Representative in Hancock.

CHARLES F. JONES HAS OFFERED
HIM A RESIDENCE IN
LOUISVILLE.

Charles F. Jones, a former St. Bernard newspaper man, now living in New York, has taken the liberty to extend an invitation to Alfred Dreyfus, in the event of his being in quest of a place of abode.

Col. Jones owns a house on Walnut street, Louisville, and he has enabled Capt. Dreyfus to stay at his residence.

"Capt. Alfred Dreyfus, Renesse, France—Dear Sir:—I cabled you yesterday morning immediately on hearing that your rightful freedom had been restored to you.

"The American people believe in you and wish you early success in securing reparation for the judicial mistake or crime of which you are a victim.

"As one of the American people, I hope you will make our glorious country your future home.

"I would esteem it a pleasure to receive you at my home in Louisville, Ky., if you would come to see me.

"I have the honor to subscribe myself as one who believes in the universal brotherhood of mankind.

Chas. F. Jones.

Good for the Children.

Mrs. Elm Hinson, of Elgin, Ala., writes us August 12, 1898. "I advise my son to take your children's Nubian Tea when they are puffy or fretful. I keep this medicine in the house and when the children are ailing I give them a dose and that is the end of it."

A Noble Work.

A certain Dr. N. C. Alexander, who lives in this town, has been circulating a subscription paper for the benefit of the widow of a railroad brakeman. This is a worthy cause, as the woman has a small family of children to care for and with scarcely any means of support. Alexander has met with success in the work, nearly every railroad man in town, with quite a number of other citizens, contributing something.

The captain deserves praise for the noble work that prompted him to do this.

It would be impossible to find a truer or more kind-hearted set of men than railroad men as a class.

Of course, there may be some black sheep in the flock, but very many of these men are God's noblemen, and whenever the community is called upon to help one another, they are among the first to respond.

Quiet, law-abiding, they are among the best of our citizens.

They are the grand old party with success.

Washing Dish Cloths.

Kitchen cloths, mostly, of course, but daily, otherwise they harbor grease and odors and become unhealthy. They should be made of knitted crochet-cotton in a square or rectangular shape, with the corners rounded off, and the edges bound with a band of Gold Dust Washing Powder to hold it.

They should be washed in hot water and dried in the sun.

Mr. and Mrs. C. E. Lane are washing dish cloths, and have a large number of them.

Write them at Louisville, Ky.

In Favor of Brown.

Gen. A. B. Inckner has bought the Park City Daily Times plant. The plant brought \$2,000 and the building \$2,100. It is said that James C. Edwards, a well-known attorney of Louisville, will be engaged to operate the paper.
